INSTALLING SCREEN MEDIA

DIGITAL MEDIA SCREEN

SETTINGS BUTTONS

USB/SD CARD SLOT

- We recommend using an SD Card to show media on the screen of the H20
- Remove the SD Card from the media screen
- Using a computer, read the contents of the SD card
- Delete all files currently on the SD Card (if there are any)

Load your media:

For stock footage please use the following link H2O-Screen-Media.zip and copy the files onto the SD card

Alternatively you can create your own using the following settings:
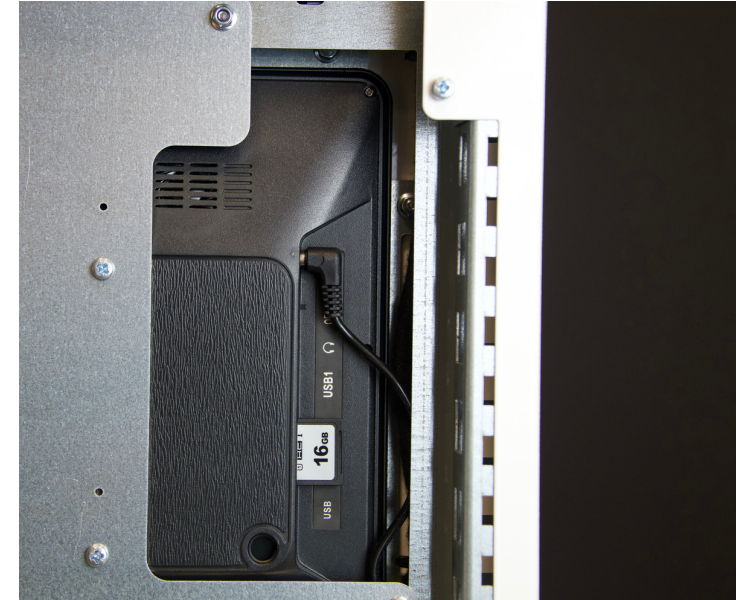

File Formats:

Image: PNG, JPG

Video: MP4

Frame Width x Height: 1280 x 720

Frame Rate: 30fps

Once created, please load onto the SD card

- Using the buttons on the back of the screen, highlight the 'SETTINGS' option and press 'ENTER' to select it
- Using the directional buttons again change the 'AUTOPLAY' options to your desired setting. i.e. 'movie' or 'photo' or 'photo & movie' should your screen have this option.

- Press 'MENU' to save the settings
- Insert SD card back into digital media screen (as shown in the image)
- Files on the SD Card will automatically play and continually rotate the media on the card.
- The screen does have sound - to adjust it please use the remote control supplied.

Water

IS LIFE - DON'T WASTE IT
