CLEANING

WEEKLY:

- Hoover Drums to remove any crumbs/debris
- Wipe clean thoroughly each drum
- For a deeper clean, drums can be removed and are dishwasher safe.

CLEAN ME!

EVERY 6 - 12 MONTHS:

- FRIDGE - disconnect and remove, hoover ventilation and condenser grille, test temperature probes, check fans move smoothly and check cut out temperature.
- COMMAND #1 - Check all delivery doors and drums are running smoothly, deep clean drums, and check entire machine is free of rubbish/food/debris.
- COIN MECH - Clean/test/refill/check reject mechanism

FILLING

NORMAL FILLING: (Command 51)

1. Either open the door, pull each drum out and fill from the top - being careful that each product fits within the compartment. The drums reloaded must be confirmed by pressing the drum number on the internal keypad - complete full revolution.
2. Or using the internal keypad with the door open, select the drum number and fill as it rotates.

SMART FILLING: (Command 51)

1. This allows for machine to recognise expired products. The correct date/time/days must be entered in Command 71-78.
2. Press button 2, display shows "select drum to refill"
3. Close the door, select drum to refill, machine will identify empty compartments, delivery door opens, place product in machine, press Shopper button to record product, continue until full.

User Guide

TROUBLESHOOTING GUIDE

DELIVERY DOOR WILL NOT OPEN - ERROR CODE 1

- Open machine and check for any obstructions in the drum.
- Check there is no debris on the motors.
- If the issue persists, the door motor may need replacing.

HEALTH CONTROL

- With the door open press either the # (ENTER) on the internal keypad or the shopper button to reset.
- If the issue persists - consult an engineer regarding fridge fixes .

ERROR CODE 10

- Internal (Cabinet) temperature probe defective.
- Call-out required by engineer to test and fit a new probe.

ERROR CODE 11

- Evaporator probe defective.
- Call-out required by engineer to test and fit a new probe.

NO CHANGE DISPENSED

- Check the coin mech is full - clean & fill if necessary.

MACHINE WON'T DELIVER PRODUCTS

- Check to see if sell by dates are active for products.
- Check the Health Control - machine won't deliver if fridge is too warm.

PRODUCTS EXHAUSTED

- Occurs if products have sold out or drums not reset properly after loading.
- Open door, press the drum number and complete a full revolution, close door, drum is now reset.
